PLEASE READ AND UNDERSTAND ALL INSTRUCTIONS BEFORE INSTALLATION. Auto makers offer varied models to each vehicle and occasionally manufacture more than one body style of the same model. To assure your part is correct; our tech department can be contacted at tech@trexbillet.com to verify fitment or assist with tech questions. All other inquiries can be directed to info@trexbillet.com. In the event you do not have internet access please call 1-800-287-5900.

Step 1

License Plate Removal

Remove the license plate from the license plate holder with a flathead screwdriver (Fig 1).

Step 2

License Plate Holder Removal

Remove the license plate holder by opening the hood and locating two plastic latches on the back of the license plate holder. Pinch the tabs together with your fingers and push the tabs down through the slots in the bumper opening and pull the license plate holder forward and upward to remove the license plate holder (Fig 2).

Step 3

Torch Bumper LED Grille Installation

Take the Torch bumper grille and insert it into the bumper opening. The two threaded studs on the back of the bumper light will insert through the oblong holes in the back of the bumper (Fig 3).

Step 4

Torch Bumper LED Grille Installation

Take the two fender washers and place them onto the threaded studs followed by the lock washers and the hex nuts and tighten with a 7/16" wrench (Fig 4). Complete the wiring of the lights.

Installation complete.
