T-REX GRILLES ISSUES FITMENT NOTICE REGARDING 2015 FORD F-150 BUMPER GRILLES

T-Rex Grilles released the product line for the 2015 Ford F-150 pickup truck earlier this spring. It has recently come to our attention that the lower bumper opening on the EcoBoost® models are slightly different than the V8 model pick-up trucks which features a much shallower opening.

For this reason, we have updated the product descriptions for the X-Metal Series, Upper Class Series, and Torch bumper grilles pertaining to the 2015 F-150. Part #'s 6725730, 6725731, 55573, 52573, and 6325731 are designed for the EcoBoost® model trucks and do not fit the V8 Model trucks.

We have created all new part #'s and/or redesigned product line for the V8 model lower bumper grille openings.

The Billet Series bumper grilles; Part #'s 25573 and 25573B have been redesigned to fit both style pickup trucks and is compatible with the V8 and also the EcoBoost® lower bumper openings.
