2006-07 INFINITI G-35 SPORT EDITION **UPPER CLASS SERIES – 2 PC BUMPER**

Tools Required:

Small Slotted Screwdriver
5/16 Wrench
10mm Socket / Wrench

Part List:

2 Upper Class Series Grille (Right & Left)
6 6-32 Nylon Lock Nuts
6 #6 Flat Washers
2 2" Flange Brackets

Read and understand instructions before attempting installation

Step 1

Remove the retaining bolts below the front bumper holding the engine splash shield in place. This will allow access to the rear of the bumper openings.

Step 2

Center one of the grilles over the opening. They will fit only one way. From the rear of the bumper, secure a flange bracket on the stud closest to the license plate. Secure the remaining studs using the remaining nuts and washers. Snug the hardware up; Do not overtighten.

Step 3

Repeat the process on the other bumper insert. If needed, loosen the hardware and adjust the inserts. Re-install the hardware retaining the engine splash shield in place.

Thank you for purchasing a T-Rex Billet Grille. 6/30/06
